CEMENT ROOFING. THE undersigned are prepared to introduce into use in Temperate W. F. CHILDS & CO.'S PATENT ELAS-TIC PIRS AND WATER-PROOF CEMENT ROOFING, and panies, and the public to examine its superiority over other

ARCHITECTS AND BUILDERS should not fail to

examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every cimate. It is impervious to water, clastic, and flexible. It contracts and expands with the changes of the a mosphere, and will neither supporate, crack nor rot; and, as to It is practically in perishable, and will perfectfully resist any ordinary external exposure to fire, as is shundarily proved, and we will warrant it water-proof. We will engage to put our Rooting on over ordinary good heathing, old shindles, tar and gravel, tin, sinc, croper, or iron roofs -it making no difference how steep or flat they may be-for seven dollars per one hundred square feet; it being far cheaper than any Roof of the old style, and we are sure it will live better satisfaction.
It will also be found to be the best trieg ever invested to cover or mend o'd leaky tin, tar and gravel roof), or around chimpeys, scuttles, dormar windows, and gutters, " here the tin is ruit d through. This Cement can be put on to last as long as stone, and form a perfect ad even to any object to which it is applied. Tin Roofs can be painted over (and warranted not to leak) at two d llars and fifty cents

per hundred square feet, which is cheaper and much beta feir than paint. This Boofing will be found to be the best theng for covering large Roofs where they are exposed to fir —such as S cam Mills, Saw Mills, Factories, Ruiroad Cars, Bridges, Depts, Station Wouses, Steamboat Decks, and, in fact every kind of Roof where there is an external exposure from fire. As the Reo'ls perfect, without a joint light be cured for twenty-five cents. The Eye Lotion in it, it presents no chance fir fire to communicate, and any light sub-tance will form out with at igniting. Insur-nee Offices at Circimnati, and other places where Child: & Co.'s (enent has been used, insure suidings with Foofs powered with this Coment, at the same rates as for those covered with Iron, Copper or Tin The Cement will be furnished to those at a distance with directions for came.

Having made considerable inquiry as to the merits of the "Patent Flastic tement Roofing," introduced into this city

by thilds & Co., I find it to be highly recommended in this city by many excellent judges; that it is meeting with very ready and general introduction; that it is meeting with very ready and general introduction; that its superiority over the tar composition like fing is decided and freely admitted; and finally, I expect to adopt it for my next root, which will be next summer—having intended to use tin, but will try the virtues of the "Patent blastic Reofing" as a substitute.

W HO has been for many years located in Tennessee as a Tuner and Regainer of Pianos, would respectfully call the attention of the musical public to the fact, that he visted New York last year for the purpose of making arrangements with the best Piano Forte makers to sell their Instru-ments. After spending several weeks in that great metropolis, visiting the different manufacturers of note, he came to the conclusion—and who might be judge in this case if a Tuner of theire years is not?—that the Pianos of of Lighte, Newton & Bradbury's should be preferred to all others. He accordingly made an agreement with them, whereby he is enabled to turnish Planes at retail cost in New York, treight and charges added, so that every one who buys of him may knew that 'e is not paying more for his article than he would be charged by the manufacturers themselves if he were to visit them in person. This House s making twenty Planos per week, a much greater number than is made by any other in the United States, and for purity and volume of tone and fineness of finish, both in-side and out, the proof is that they stand wholly unrival-We are now contending against two mighty Corporations led. These Pianos were awarded the first premium by the Juries of the World's Fair and the Fair of the American Institute in 1853.
